I want to gain the Kanban Management Pro cert

Doing some ADO work that I'm using Kanban for and there are some limits I want to seek some advise on

Want to learn Kanban in-depth, not just skim through

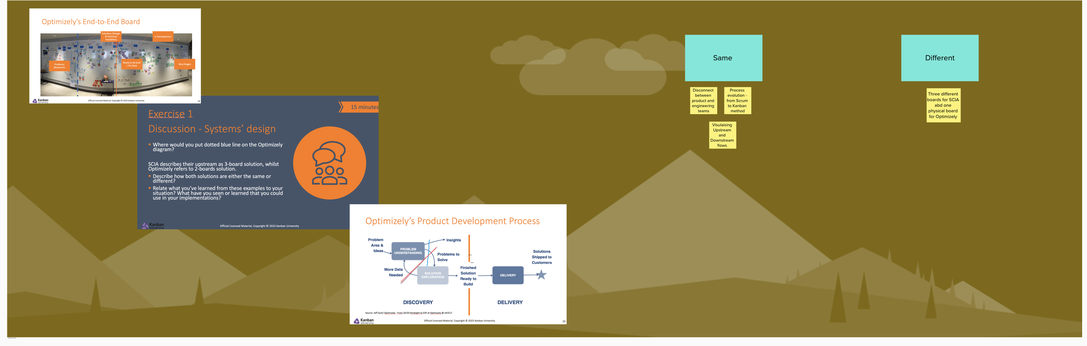
I want to get KMP cert

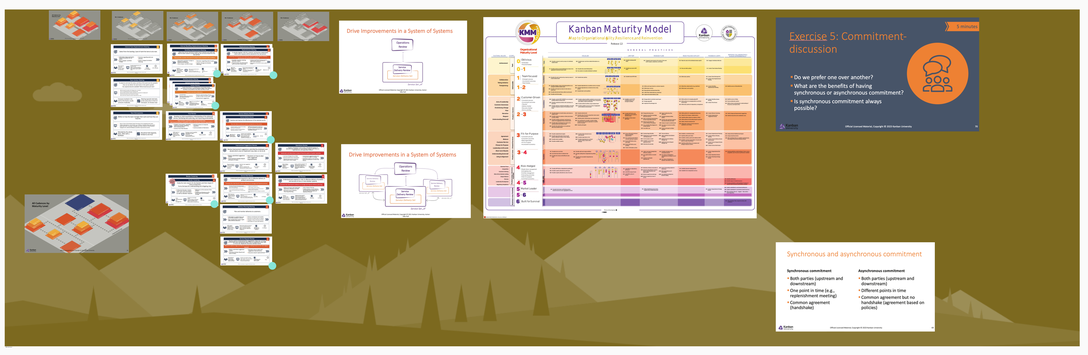
More practise with the system

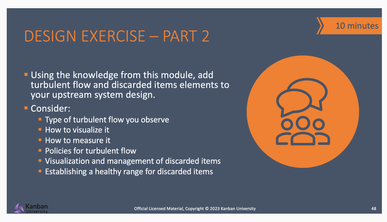
Continue my kanban journey

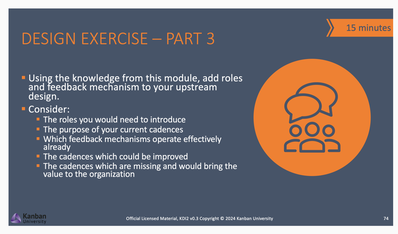
Rudimentary-Kanban is used by my company's clients. I want to be proficient and confident with Kanban application

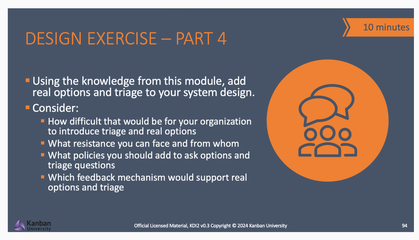
This class is a way to invest in-my prof. education & diffrientiator in a job market

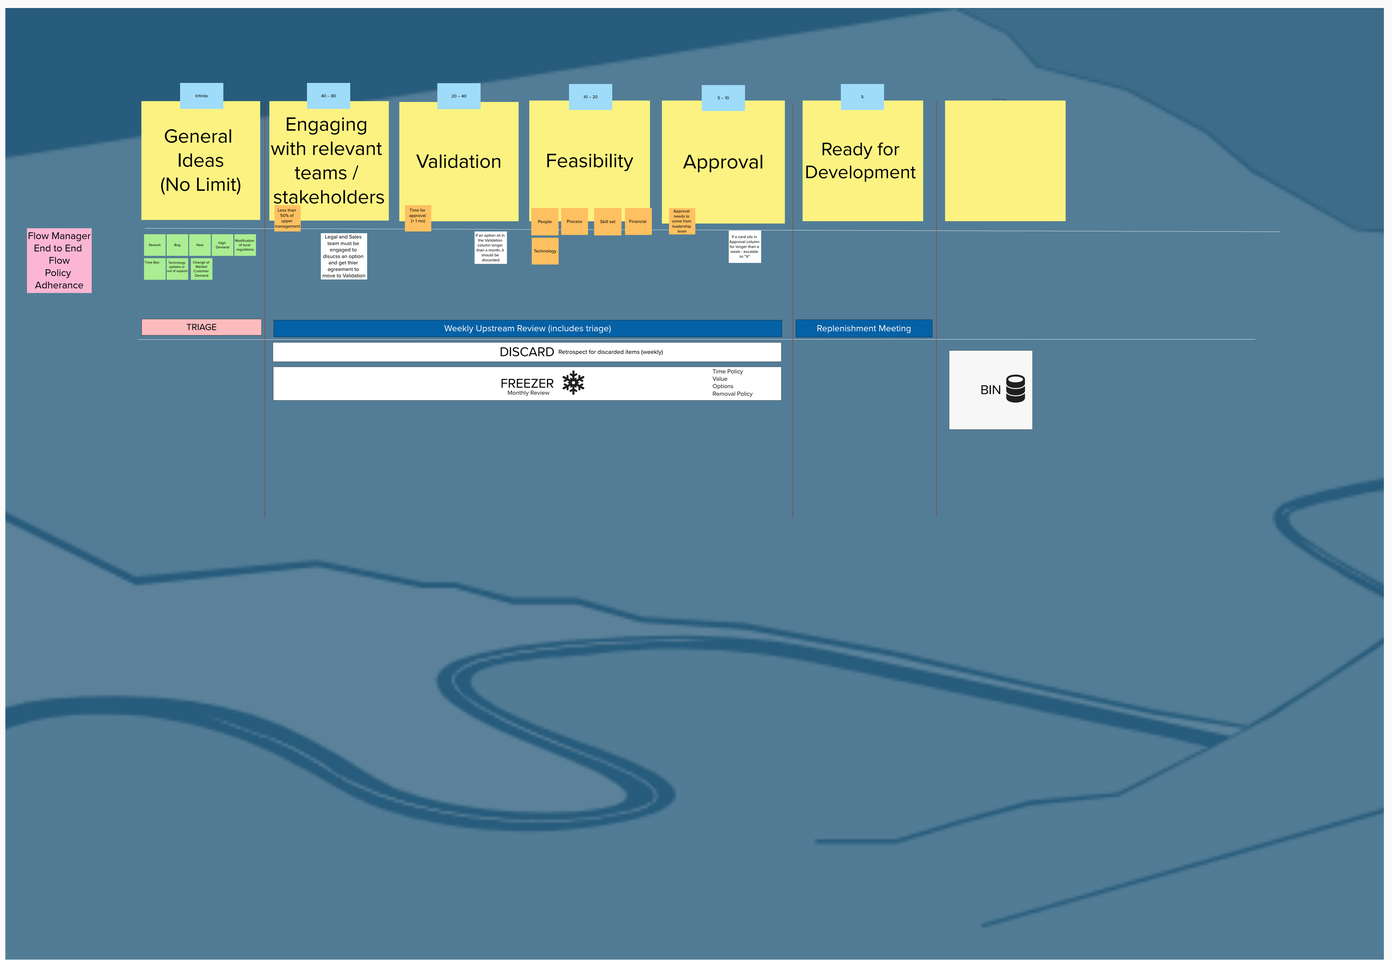


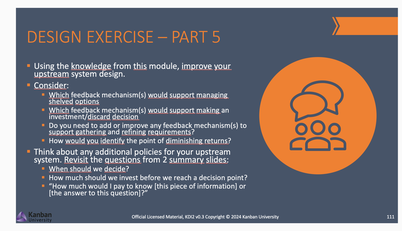












"Tell your zoom partner what you would say about Upstream System Design if a newspaper reporter wanted to quote you.

Analysis Filter Broken, leaves Analysts drowning in Ideas

Upstream is must to fully understand your product/service delivery process end to end; and get cross functional teams to work together

Similar to Disney Method but with more structure

"1 minute walk and talk, tell a person what you just learnt about turbulent flow, and discarded and aborted work.

"What would you say about Optionality if a newspaper reporter wanted to quote you?

Groom advised by best man to abort after viewing bride to be's credit card limit

In uncertain times, you need more options. And be prepared to absorb the cost associated with options analysis. Most likely you won't regret it :-)

Microsoft provides real options after shelving Myspace

Keeping multiple doors opened until you can figure out what room you want to go into

"1 minute walk, stretch and tell your partner what you just learnt about triage.
